2 What Do You Want to Be When You Grow Up?

Guess what? You're almost there! It's time to start thinking about what you are going to do after high school. Answer the following questions to help you gauge where you are right now.

What colleges or universities have you applied to or do you intend to apply to?

List the diploma/degree program(s) you are interested in and your reasoning for applying to them.

What do you plan on doing after obtaining that particular diploma/degree?

Do you have alternatives in mind if your first choice(s) for schools and/or programs don't work out? It's always a good idea to have a backup plan.
